ПРЕДИСЛОВИЕ

Настоящее методическое пособие предназначено для учащихся 3–11 классов школ с углубленным изучением английского языка, а также может быть использовано в языковых ВУЗах для обучения английскому как первому и второму иностранному, на курсах иностранных языков и самостоятельно широким кругом читателей, изучающих английский язык.

Основные цели пособия:

- развитие навыков чтения художественного текста;
- развитие речи на материале художественного текста;
- расширение лексического запаса;
- углубление интереса к литературе и культуре изучаемого языка.

Как построено пособие:

Пособие состоит из 15 уроков, соотносимых с главами книги Р. Киплинга «Ким». Каждый урок рассчитан на 2-3 часа аудиторных занятий, включает учебный словарь, упражнения, нацеленные на проверку понимания содержания художественного текста, на отработку лексико-грамматического материала и развитие коммуникативных навыков. Упражнения пособия можно разделить на традиционные и коммуникативно-направленные.

К традиционным можно отнести:

- перевод с русского на английский и обратно;
- упражнения на заполнение пробелов;
- упражнения на повторение грамматических форм глаголов;
- упражнения на повторение синонимии и антонимии.

К коммуникативно-направленным можно отнести:

- упражнения на адекватное понимание понятия по описанию, когда требуется коммуникативный отклик;
- пересказ и рассказ в монологической и диалогической форме;
- описание объектов, явлений, понятий;
- обсуждение ряда проблем и вопросов, поставленных в тексте.

В большинстве уроков автор пособия следует принципу «коммуникативного кольца», когда начало и конец урока ориентированы на развитие речи, а лексико-грамматический материал, составляющий срединную часть урока, является базой для коммуникативных заданий.

Данный принцип позволяет учащимся несколько раз возвращаться к тренируемым явлениям, что облегчает запоминание материала.

Учебный словарь, данный в начале каждого урока, содержит в среднем 20-30 слов. Данный в нем перевод достаточен для правильного понимания и адекватного использования слов, однако, безусловно, не передает всю гамму значений многих широкоупотребительных слов.

Сам художественный текст отражает сферу бытового общения. В нем активно используются элементы разговорного синтаксиса, лексико-синтаксические конструкции, характерные для живой разговорной речи.

Как работать с пособием:

Каждый урок начинается вопросами по содержанию текста. Далее следуют задания:

- установить истинность/ложность информации в соответствии с содержанием текста;
- выбрать вариант информации, соответствующий содержанию;
- расположить предложения по порядку в соответствии с содержанием текста.

Задания на понимание не только проверяют, насколько усвоен текст, но и помогают понять содержание. Ответы на вопросы стимулируют разговорные навыки, позволяют обнаружить пробелы в понимании.

Лексико-грамматические задания в большинстве случаев строятся по схеме:

- объяснение материала (конструкций, глагольных выражений, идиом и т. д.);
- заполнение пробелов с использованием ранее введенного и объясненного материала;
- составление учащимися собственных предложений с данным материалом;
- перевод с русского на английский с использованием усвоенного материала.

Задание на развитие речевых навыков эффективнее выполнять при контроле преподавателя, особенно при работе в парах.

Exercise 1.**Think on the following problems of the novel and discuss them with your partner.**

1. Religions in India.
2. What do the Wheel of Life and the Cause of Things mean in the life of Hindus?
3. What helped the lama to see the Cause of Things? How did it affect him and his relationship with Kim?
4. What is Kim's future?

Exercise 2.**Translate from English into Russian.**

1. He peered at the cross-legged figure, outlined jet-black against the lemon-coloured drift of light. So does the stone Bodhisat sit who looks down upon the patent self-registering turnstiles of the Lahore Museum.
2. The boat of my soul lacked direction; I could not see into the Cause of Things. By this I knew the Soul had passed beyond the illusion of Time and Space and of Things.
3. Then a voice cried: "The River! Take heed to the River!" and I looked down upon all the world, which was as I had seen it before – one in time, one in place – and I saw plainly the River of the Arrow at my feet.

Exercise 3.**Speak about ...**

- Kim (his background, personality, habits, relationships with people, his possible future);
- the lama (his origin, his search of the River, his spiritual search, relationships with people around);
- differences in the lifestyle of the lama and the spies (Mahbub Ali, Lurgan Sahib, Hurree Babu); what is the main contradiction that can happen between them; what approach to the life you would choose for yourself.

Answer the questions:

1. How did the foreigners finish their way?
2. How did the lama and Kim get to the old lady's house?
3. How did Kim feel? Who helped him to recover?
4. Why did Hurree Babu stay there?
5. What happened to the lama while Kim was sleeping?
